Now, he expands his vision with a cutting-edge investigation into alternative sciences with deep insights into what is coming in our immediate future. Okay , I got up at 3:00 a.m. this morning in order to get this book on my kindle. I must admit, I try to still use my libraries as much as possible and normally have the patience to wait no matter how much I want to read a newly released book. But not this one.. no I have had a driving urge to get it since I learned it was coming out. That's been a long, long time. Nor would I ever consider with any other book writing a review before I read it. And I will come back and write a review after. Actually I've already started it and it's got me hooked so much I know I'll be book reading possessed and won't be able to stop till I finish it, but if you don't know this guy or anything about him, it would

probably be most expedient to check out his youtube videos..I have had the good blessings and cosmic luck to have stumbled upon his site over a year ago. I want to stress though, I do not know him at all, nor do I know anyone connected with him. So this is not some planted review. This is just a heart sent wish that everyone gets a chance to be exposed to this man's life work during this incredibly important time on the planet earth.He has a ton of free info on his site, in fact so much there's enough reading there to keep you busy for a while, but I have feeling if you check out his work, take the time to read and listen, you'll be like me and feel that the only natural thing to do next is to buy the book. I really believe from keeping up with him, first that this guy is freaking amazingly intelligent, sincere and has poured his very soul into ALL of his work.And I believe it's reached a point where he needs to be heard by as many people as possible.
