Customer Reviews

All the Beanies are listed in alphabetical order, the retired ones are marked at the top of their page. This book even lists prices according to the HANG TAG generations, as well as VARIATIONS. It has very colorful and creative images of Beanies. The only problem is that the new releases weren't added into the book in time. There are pictures of the new ones, but no information on them. Overall, it's a book worth having.

The pictures are cute and thorough -- showing the different versions. The information on hang/tush tags was very informative and the pictures here will help anyone new to collecting beanies. I liked the 'notes' on each beanie and found the price guides more realistic than most books. Like all beanie books, it will quickly become outdated, so I am not sure the area to store your 'personal collection' should be used, but it might be valuable to some. Overall, I depend on it a lot.

Great discription for every Beanie Baby and it's tag. This book has all you need to know about each and every Ty Beanie Baby. This book is also great if you are just starting to collect Beanie Babies.

I like this book a lot. If you need information on beanies get this book
