All About Us: For The Two Of You

Synopsis

Now with a new, updated layout and cover, the extremely popular journal All About Us is a powerfully revealing book for couples, filled with thought-provoking questions to capture relationships in a meaningful yet fun way. All About Me has given thousands of readers insight into the thoughts, feelings, and events that uniquely shape their lives. Now Philipp Keel has created an even more personal collection of fascinating questions--a fun, non-threatening tool designed to help couples deepen their relationships. Unlike dry record books that merely account for dates and names, All About Us gets to the heart of the matter by asking the questions that partners may be desperately curious about but hesitant to bring up, such as: If you could change one of your partner's body parts, what would it be? You have drawn blood in a fight with an ex (yes/no). Name a habit of your partner that you have proudly accepted. With questions about romance and sex, daily routines and the life of your dreams, All About Us will help you and your partner discover more about yourselves and each other than you ever imagined possible. Whether you fill it out together, separately, or ask and answer questions aloud, this unique book will help you deepen your relationship and brings a new level of honesty and self-revelation to all couples.

Customer Reviews

I learned about this book as a result of my enjoyment of Mr. Keel's book, All About Me. I wasn't quite sure what the focus of a book called All About Us would be, but I was interested in finding out. I am glad that I was curious, because this book took me towards new and improved thoughts about my wife and our relationship. Before reading further, let me emphasize a few things. This is not a

book about romance, nor a guide to improve your relationship (see Relationship Rescue for that). You are encouraged to pursue this book's questions in a spirit of adventure and fun. If the idea of answering questions from a book is not your idea of adventure and fun, this book is not for you. So most people who will read and enjoy this book are ones in a good or excellent relationship who want to deepen and widen it some. One final word of caution. There are a lot of questions in here about your sexual experiences with other people (before and during your relationship), your fantasies, and your sexual regrets. If those are not comfortable areas for a discussion, I suggest that you either skip the book or mutually agree to pass on those areas. Another way to pursue the book (if your partner or you isn't comfortable with a discussion) is to do it privately, without sharing your answers. That makes the book experience much more like All About Me. You should also feel free to make up your own questions. You will probably think of some that make this experience fit your relationship even better. This is a chance for all of you romantic couples to come up with lots of romantic questions. As I went through the book (by myself, for reviewing purposes -- I plan to start it this weekend with my wife), I had a very good time.
