Customer Reviews

The title of this book is a mis-nomer. I needed an accompaniment to my Chambers Dictionary in order to attempt the completion of the FT Polymath every Saturday and expected this to be ideal. Suffice it to say that it is almost un-intelligible in its present format since it provides locations without reference to meaning.JJ

When using a crossword dictionary on the Kindle you expect to be able to select Search, input the search word, and press return to get the dictionary entry. This works perfectly for Collins Bradford's Crossword Solver or any of the standard Kindle dictionaries. When I try to do this for Chambers Crossword Dictionary it produces every occurrence of the word throughout the whole book from

Introduction to the end as if it was a novel. In the drop-down menu to the left of the Search window there is no option called Index Items like there is for other dictionaries and I think that is the problem. If we cannot do an Index Item search then this dictionary is too cumbersome to use. Also, it is not automatically loaded into the Dictionary folder like all the other dictionaries - why? I have deleted and re-downloaded, I have restarted the Kindle - all to no avail. Unless this issue is resolved I can only give one star and will be asking for a refund. Buyer beware!

Works great
