Figured this book written by Highlights would be more child friendly. Not completely. While there are many sections my son (4) gets and finds hilarious, there is a whole section based on play on words

using different countries from around the world. Not sure a 10 year-old would get those and by 10, most kids would think these jokes were corny. (Publisher says ages 7 and up). Overall, a good buy as thick book and LOTS of jokes.

Cute jokes for five-eight year olds. This is a thick paperback that is well worth the money. I think it is a quality product from Highlights.

My grandson who is 5 years old is learning to read in kindergarten. These words are mostly short and easy to learn. I am having a lot of fun going through these jokes as my grandson is also learning to read these words. What kiddo wouldn't like to have a lot of fun while still learning to read?!

My four year old grand-daughter is enchanted by knock-knock jokes. She loves to laugh, and has her timing down well. However, there are only so many SHE/we know. That does not stop her though. She makes up hilarious words. I was so happy to find this book from Highlights. She can learn some for now and many other knock-knock jokes later as her vocabulary and ability to understand subtle nuances increase. I think this would be so such a great book to have for 2 or more kids to have so much fun together. The grown ups may not find a session as much fun as the kids, but lasting memories can come from simple joys. Arrived on schedule and in excellent condition. There is one more book for kids for about \$2.74, I did not have a lot of time to investigate it, but it may be super too.

This was a gift for my 8 year old grand daughter. She really enjoyed reading and telling the jokes. She has some speech issues so she has to enunciate clearly so the jokes can be understood. I gave it 4 stars because some of the jokes can't be understood by children and what adult really likes knock knock jokes?

I bought this book to amuse the small boys in our family (ages 5 & 7). It's useless for that purpose. Kids would not even get most of the wordplays, they are so strained, and the jokes are not especially funny. Here's an example: "Knock knock. Who's there? Garden. Garden who? A dragon is garden the treasure." A corny pun. And it doesn't even follow any of the patterns of traditional knock knock jokes. All the jokes are this lame. I have recycled the book.

I haven't not actually read this book but I gave it to my joke loving son for his sixth birthday and I've

been hearing about it ever since. Some of the jokes are groaners, but even bad jokes make a nice change of pace from the two knock knock jokes he told incessantly before receiving this book. As you would expect from the publishers, the jokes are clean and gentle. Some of the word play jokes required a bit of explanation to him, but that's not a bad thing - he learned some new ideas in the process. A good buy!

My 7 year old grandson can't get enough of the Knock-Knock genre.. and this provides plenty of fresh material for him.
