Customer Reviews

A strange, somewhat surreal horror story. The victim/suspect appears to be losing his mind. Maybe. There are some editing and word usage problems which should not be there in such a short story. Surely Mr. Boone could have edited it himself if he had no one else to do it. Two stars for editing but the writing itself is pretty good and the story interesting.

Excellent story. Well written with frightening suspense and unpredictable plot. I hope that it is only a prequel and that there will be a longer book to follow.
