Numerology: With Tantra, Ayurveda, And Astrology

Synopsis

For the first time, a Tantric scholar and expert in the Hindu traditions of Ayurveda and astrology presents a system of numerology that combines numerical calculations, astrological data, and an analysis of body type. He illustrates the Vedic Square and the visual patterns that can be derived from it, casting a revealing light on the more esoteric interpretations of numbers and their relationship to one another. Recommendations are given regarding strong and weak periods of day or year, favorable colors and precious stones to be worn, and meditations and mantras to be practiced for health and prosperity. Explains how to determine the psychic number, name number, and destiny number; how these numbers relate to each of the nine planets, and how they apply to every aspect of life--including personality, temperament, intelligence, talents, sexuality, spirituality, finances, travel, and health.

Numerology With Tantra, Ayurveda and Astrology Harish Johari presents a system of numerology that combines numerical values, astrological data, and analysis of body type. He explains that numbers reveal information about your personality, temperament, intelligence, talents, sexuality, spirituality, finances and health. A chapter is devoted to each number, its attributes, corresponding planet, deity and mantra. Based on your dominant number (s) recommendations are given regarding strong and weak periods of the day or year, favourable colours, precious stones to be worn and meditations to be practiced for health and prosperity. Harish claims that all numbers are

both good and bad and that none is superior yet his interpretations are quite black and white. He believes that all objects are related to the 9 planets: Sun, Moon, Jupiter, Rahu (Moon's North Node), Mercury, Venus, Ketu (South Node), Saturn and Mars. These are the traditional Vedic correspondences but his letter correspondences are not entirely Chaldean; for example C = 2 and H = 8. According to this text the Vedic Numerologist needs only:- The day of the month (i.e. the Hindu Birthday Number, which is not always what you might expect and could be very difficult to ascertain). Apparently in the Hindu system the date changes one hour before dawn (1-2 hours before sunrise).- the total date of birth, which he calls the Destiny Number- The popular name; Harish believes there are 3 important names: The First Name, the Family Name and the Popular Name. The First Name & Family Name affect whatever sphere of life they are used in while the Popular Name affects official documents and business. Adding a new Family Name alters a woman's identity and affects her psyche.
