Lawyered

Synopsis

Discovering that you don't have everything you thought you wanted is a surprise. Getting a promotion, finding new friends, learning you are attracted to women. Nia Toyomoto has worked hard all her life to prove she was the best; she graduated early from high school, college, and got the dream job in Manhattan. Becoming a partner at the tender age of thirty she thought she had it all until the law firm made demands about her personal appearance and a few other things that made her change her life for the promotion. Then she realizes having everything isn't all that it is cracked up to be without someone to share it with. A successful lawyer in the big city, choices have to be made, sacrifices and surprises await this beautiful and talented woman. Does she make the right ones though?

Customer Reviews

I agree with the reviewer who said the author needs an editor. As a lawyer, although the romantic storyline was compelling, I couldn't even continue to read after the first quarter due to poor spelling (your instead of you're, "of council" instead of "of counsel" are just a few examples) and the litigation strategies that the author clearly attributed as brilliant was well, complete and utter baloney that

made me groan.

Good drama and pacing, but soooo many grammatical, punctuation, and spelling errors that it bogs down. The idolization of the main character wears thin as does the repetition of so many insignificant details. It'll be great when properly edited.

I cannot believe I spent \$8 on this book. I am also dumbfounded by the number of postive reviews for this book. I have worked in the legal field for several years and find most elements pertaining to the main characters job as attorney are quite inaccurate. The narration rambles at times and seems to take on different styles at others. There is no flow to the information - for instance - there is an explosion in the middle of the book that is completely pointless - it is not tied in properly with the rest of the storyline and has no real emotional effect on the characters involved. Additionally, the only thing "sexy" about this book is the cover. If you want to read a sexy book with a decent storyline, try "The Housemistress" instead.

To me, this book is a coming out book of sorts, and a self exploration book, but presented so very, very differently than most. Nia, a successful young lawyer who has concentrated solely on her career, for the first time allows herself to love another woman, but in doing so begins to discover herself. Due to a promotion, she is forced to stop hiding behind her heavy eye glasses and frumpy-ish clothes, and start dressing as the beautiful woman she really is, and in turn, starts to love herself, trust herself, and believe in herself, not just as a lawyer, but as a person. Life for her like all people is not peaches and cream, and she learns to deal with adversity along the way, yet you keep leaning forward in your chair constantly, cheering for Nia with every page!! I looked at other ratings given to this book before writing this review, and I understand that not every book is for every person. Some found it to be tedious. But it shows me they don't understand the sometimes painful and emotional process that goes along with revealing to your co-workers, friends, family - the world - that you're gay. I did find it curious that one reader, and I hate to call people out, but I feel the need to, Candy Lambert, gave it 1 star, and for this reason: I often see what other books people have rated, whether they have given a high or a low rating. Why is it then, that Ms. Lambert gave this book a 1 star, read three other books of Ms. Meinel's, and gave each a 1 star? If you don't like her books, why would you keep paying for and reading her books, then continue to berate them? What is your reasoning? It brings to mind what my parents taught me even as a young child. If you don't have something nice to say about somebody, don't say anything at all. Ms. Lambert, if you don't like

Ms. Meinel's books, please just stop reading them and spoiling things for the rest of us. Thank you very much, and have a nice day.

At first i thought I had read the wrong book after some great reviews. Clearly I should have read more of them. I can't believe I got to the end. I think the train wreck phenomenon occurred...could it get worse?? Oh yeah it could it ever. Sooooo painfully long, laughably ridiculous, and really really amateur. I can't say I've ever heard anyone real or imagined in law use the phrase "and all that stuff" when referring to a case. But wait! there's 400 odd pages of gems like that. OMG...hope my eyeballs recover. Clare Ashton, Sandra Moran, HP Munro...write more...faster...please!!!

I just read this book by K'Anne K'Anne Meinel & I gave it 5 stars! I did not want to put it down!! I love this authors development & growth of her characters! She brings out their strengths & weaknesses in great detail with great believability! I like that the romantic aspects develop slowly as that paves the way for very provocative and erotic sex scenes!! This is a great read, and I didn't want it to end!!

Lawyered is a poignant story of a young woman coming to grips with a common revelation for a lot of people; that money, success, and friends do not equate to true happiness. The main character Nia Toyomoto's epiphany rings with a realism and sincerity that snaps the reader out of their complacency back into the throes of real life's hustling gives-and takes. Nia's fulfillment as is true for most of us, comes in the form of long awaited love. A masterfully told story sure to satisfy.

I liked your novels but your use of the word "of" instead of "have" was getting irritating. It needs some pruning as well, was just too long without being substantial.
