Sport, Physical Activity And The Law

Synopsis

This book takes a practical approach, exemplifying how to use the law as a day-to-day management tool. Issues discussed in this edition include risk management, responsibilities of game officials, breach of contract, product liability, role of the EEOC, right to participate, and statutes such as the American with Disabilities Act. This new edition features supplementary case studies, management guidelines, and discussion questions to help clarify each concept. It's much easier to prevent a legal problem than to resolve one. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

Written by exercise science professors Neil Dougherty & Linda Carpenter and attorney/sports official Alan Goldberger, *Sport, Physical Activity, and the Law* is a no-nonsense, in-depth survey of the American legal system as it applies to sports and physical activity. Now in an updated third edition, *Sport, Physical Activity, and the Law* covers first, fourth, and fifth amendment issues in sports; legal responsibility for participant safety; legal issues of exclusion versus inclusion; and much more. The text is accessible to readers of all background without being dumbed down, and is especially helpful for its in-depth descriptions of common legal pitfalls. An absolute "must-have" for physical education instructors, sports coaches, and anyone else involved in teaching, conducting, or supervising sports and physical activity, particularly when responsible for minors.

The book was great. No markings in the pages or water damage.

Great Condition!!
