The Christ Conspiracy: The Greatest Story Ever Sold

Synopsis

In this highly controversial and explosive book, archaeologist, historian, mythologist and linguist Acharya S. marshals an enormous amount of startling evidence to demonstrate that Christianity and the story of Jesus Christ were created by members of various secret societies, mystery schools and religions in order to unify the Roman Empire under one state religion. In developing such a fabrication, this multinational cabal drew upon a multitude of myths and rituals that existed long before the Christian era, and reworked them for centuries into the religion passed down to us today. Contrary to popular belief, there was no single man who was at the genesis of Christianity; Jesus was many characters rolled into one. These characters personified the ubiquitous solar myth, and their exploits were well known, as reflected by such popular deities as Mithras, Heracles/Hercules, Dionysos and many others throughout the Roman Empire and beyond. The story of Jesus as portrayed in the Gospels is revealed to be nearly identical in detail to that of the earlier savior-gods Krishna and Horus, who for millennia preceding Christianity held great favor with the people. The Christ Conspiracy shows the Jesus character as not unique or original, not a divine revelation. — Christianity reinterprets the same extremely ancient body of knowledge that revolved around the celestial bodies and natural forces. The result of this myth making has been — The Greatest Conspiracy Ever Sold. — .

The further one goes into this book, the more one recognizes how vast is the mythological background of the ancient world that the modern era has completely lost sight of. Those who imagine that the Gospel story represents singular historical events are in for a shock when they realize the degree to which the Christian myth of Jesus of Nazareth was a reflection of mythical motifs and traditions which saturated ancient and even prehistoric cultures. There is barely an original or virgin bone in Christ's body, and Christians in the early centuries were regularly assailed by pagan detractors who accused them of reworking old ideas and copying from a host of predecessors. The other thing the reader comes to recognize is that Acharya S has done a superb job in bringing together this rich panoply of ancient world mythology and culture, and presenting it in a comprehensive and compelling fashion. Moreover, she grabs the reader from the first page and doesn't let go. Her style is colorful, bold, occasionally (and justifiably) indignant, even a touch reckless at times, but never off the track--a little like an exciting roller coaster ride. It may take a fair amount of concentration to absorb all this material, but even if you don't integrate everything on first reading, the broader strokes will leave you convinced that the story of Jesus is simply an imaginative refashioning of the mythological heritage of centuries and that no such man ever existed. She covers a wide range of interesting and provocative topics, with plenty of stimulating insights.

I am 53 years old, was once a catholic, and I have been studying Comparative Religions for over thirty years. My library contains works by Robertson, Whelas, Carpenter, Frazier, Campbell, Smith, Keller, Kolb and too many others to mention, but if I had to recommend ONE book to the interested student who wished to have her/his eyes opened to the unfiltered truth about christianity in particular and religion in general, that one book would be The Christ Conspiracy, by Acharya S. It takes many years of thought and effort to wade through the complete works of Josephus, various translations of the bible, numerous texts (some enlightening - some inane and dogmatic) in an honest and scholarly examination of the major creeds that exist on this planet at this point in time. If you wish to just 'skip to the end of the search' where the judeo/christian theology is concerned (or should I say astro-theology), then buy a copy of this book, read it twice, and then loan it to a friend. Archarya's work is one of the most heavily documented texts I have yet studied, and unlike some reviewers

who claim to have had some difficulty verifying quotes and context where notations are concerned, I had none of these difficulties. Moreover, I found that her conclusions, where drawn, were accurate and reasoned. A certain 'spirit' in the style of her writings is refreshing. The reader must keep in mind however, that this is a purposefully confrontational and brutally eye-opening text.

I wish I had the time to write a comprehensive review of this book, but I'll keep it somewhat short because A) this book is 10 years old and B) so many people have chimed in already. As an atheist with serious doubts that a human (let alone a magical god-thingy) named Jesus ever existed and next to zero respect for religion, organized or otherwise, I was very interested when I picked up Murdock's book. At about the halfway point, however, her unsupported assertions and flimsy references had stacked up to such a degree that I stopped reading and went online in an effort to verify that her sources were even remotely credible. What I found is obvious if you've read a few of the negative reviews of this book: this self-professed "scholar", who apparently hasn't even attended grad school, has woven a tapestry of speculative musings into a 400+ page book that appears not to have garnered any positive recognition whatsoever from any reputable scholar. It's not often that I find myself agreeing with Christian apologists, but when I read Mike Licona's papers taking her to task for her extraordinarily sloppy scholarship, I realized that I wasn't crazy; this woman seems to have no idea what constitutes proper academic procedure. She just knows how to fake it enough to convince uncritical readers that she knows something no one else does. I understand the impulse to take what she says at face value: what atheist wouldn't want to be "in the know" regarding the greatest charade of all time? The thing is, if you're an atheist, you're already in the know.
