Customer Reviews

I have a Nook Color and thought this book would help me. It didn't. Appears to be a Nook Tablet book, with minimal reference to Nook Color. Definitely not "everything I need to know."

I bought a Nook book reader and never wanted to attend any of the classes. This book is really handy for me to refer to whenever I need an answer. I love it!!!

This book is well written and covers just about everything concerning Nooks. All in all a good value. I own both kinds of Nooks and this is well worth having.

downloaded & they wouldn't even give me my money back. VERY poor customer service!!! They are the worst for any KINDLE!!!

Very informative. Very helpful. I got alot of helpful tips from tlhis book. It was very easy to read and understand.

The book makes it easy to learn the Nook. I haven't learned everything there is to learn, but I'm getting there.
