The Complete Idiot's Guide Numerology Workbook (Complete Idiot's Guides (Lifestyle Paperback))

Synopsis

Numerology holds the key to self-understand, foretelling the future-and strong sales... Numbers reveal essential truths about people, their loved ones, and the world around them. Here, readers learn how to observe those numbers, calculate their meanings, and interpret what they reveal. Through understanding all types of numbers (Core Numbers, Karma, Master, Pinnacles/Challenges, Passion, Balance, Personal Year, Universal Year), they can divine a roadmap to their future. •Readers can create forecasts and charts as they would astrological charts •The two Complete Idiot's Guides(r) numerology books are ideal for bundling together

Customer Reviews

Plain and simple, this is a great guide to the practice of numerology. The authors write in a concise, easy-to-understand style that explains the concepts behind numerology and the many different ways in which it is used. I particularly like the real-life examples given. Perfect for anyone interested in the subject, either as a research tool or a how-to for the student of esoterica.

I bought this book thinking it would be a great way to study numbers. Not only is it hard to follow (the examples are not well executed) but there is incorrect information. On page ten she writes "The date is January 12, 2009 and Captain Chesley B Sullenberger III.....Could this safe landing reveal a numerological vibration restoring authority and respect?"Her exampleLet's look at the date:Month: 01Day: 15Year: 2009She uses a DIFFERENT day in her example....the 12th in her story and the

15th as her example. That was enough for me....I wasn't going to proofread the book as I went along. Not for \$18.95! You can go to Decoz.com and chart all of your numbers - for free. And it's all done for you...just plug in the numbers and your computer does the calculations.

This book offers you several ways to see your life's path, but they are inconsistent at times and do not match up with any other numerology I have followed. This left me confused and frustrated. Several of the activities are lengthy and produce convoluted results.

I think that this book is great for a beginner and gives you a general idea of the calculations and the different aspects of a full numerology report. I found it to be pretty accurate. The only thing I think could be improved are the detailed descriptions of what each number means, I would have preferred if they would have listed number descriptions under each category (where I'm sure they have different meaning). This is a great starter book for someone looking to get into the world of numerology.

The book was fun at first to read and figure out the first several pages of the workbook.. it becomes pretty intense and I felt repetitive. Its very general in the interpretation and you can basically Read into the meaning what you want. I lost interest and never completed the workbook.

Information is good once you have paper and redo everything in each chapter, don't like the layout, too much instruction and information explaining what will come in later chapters, took to long to get to the good stuff.

A Basic introduction opens the door to a more intensive study! It is "All in the Numbers" and what isn't. It's not just "I've got your number" but it is finding your own numbers

I loved this book. It is very easy to understand and has loads of information. Anyone interested in Numerology will enjoy it.
