well, I bought a book for boxing and ran pass through this, it has given immense information about kickboxing and as well as the origin of the sport which is muay thai. I just find the book less pleasing to read because of the way how the author provided the information through his writing, or maybe I'm just not into how he writes, this is just my opinion based on the other books i've purchased before hand

Kickboxing is one on my wish list. I really want to learn kickboxing for the purpose exercise and self defense.
