Teach Them Spanish! Grade 4

Synopsis

Teach Them Spanish! is for the teacher who has a little knowledge of Spanish and a lot of enthusiasm! This book guides you through practical lessons in beginning Spanish so that students with little or no previous Spanish will experience the thrill of success with a second language. Lessons, appropriate for fourth graders, are organized by topics familiar to the student, such as colors, clothing, food, family, and animals. Each lesson includes a simple-to-follow teacher lesson plan, a practice page, and activity pages. Lessons also include games, puzzles, songs, chants, and writing activities. Try this fun and practical program for teaching and learning basic Spanish.

I taught Spanish at the high school and junior high level for 8 years and am now mentoring other Spanish teachers. I bought this book either my first or second year and continued to use it every year. It was a valuable resource. I felt that when teaching the Spanish pronouns and teaching conjugation that my Spanish I students needed the steps to be broken down a little more than what their textbook did. Teach Them Spanish has fabulous reproducible pages as well as Spanish teaching techniques and Spanish games to play with your class. This book says level or grade 4 but it worked great with my Spanish I students in high school. Level 5 would also work just fine. Besides the Spanish pronouns and conjugating other topics include colors, clothing, food, family, and animals. Each Spanish language lesson includes a simple-to-follow teacher lesson plan, a practice

page, and activity pages.

I wanted to teach my 4th grader Spanish at home. This book is not great for this purpose. I can do it, but it entails a lot more on my part than I intended; such as making flash cards and creating work plans. So, I think it would be great for a homeschooling parent or a classroom teacher.

My 8 yrs old loves it and spends time everyday going through it....this ia an excellent book for kids learning spanish

This is the old way of teaching a language.

Former teacher -- now homeschooling my own child. I love this, but I'm accustomed to teaching from lesson plans. It may be confusing for someone who is not. Highly recommend!
