Customer Reviews

I bought this book for a supplementary book for my Public Health and Law class. It so far has come in very handy.

As described.

Never buy from Betterworldbooks! I've been a very happy costumer up until I bought from "Beterworldbooks". I ordered a text book from them and it took about 3 weeks too long to get to me, longer than any other book sellers. They sent me the wrong text book, with the same author but the wrong edition. As if that was not enough, they sent me a library copy as it still had the library's name printed on it, and it was more than two decades old. Obviously if I am going to school now, a library stolen copy of a text book that is more than two decades old, is no good for me now. I contacted this seller but I never got a response nor did I get my money back. My advise to everyone never buy from them ! I know I never will.
