Family Law In A Nutshell

Synopsis

Family law has emerged as one of the most dynamic and controversial areas of modern law. Drawing increasingly from constitutional law, conflicts of laws, property, torts, criminal law, tax and welfare law, family law has also grown ever more complex. The fifth edition of this classic text, available in late August 2007, comprehensively surveys the traditional landscape of family law as well as important new legislation and case law relating to domestic partnerships, same-sex marriage, parentage, adoption, child custody and support.

Customer Reviews

I needed this for class, I'm not going to say I loved it because it was schoolwork and I hate school work, but I understood the concepts and I got an A, so I guess some stuff sank in

Outstanding for anyone interested in Family Law, concise, well written and a real eye opener as to Family Law in the United States.
